

If you lose this page, ask a friend for the following link so you can print out another square.
www.pinkflamingoGAS.com PW:gas1234

- The box in the upper left-hand corner is for your portrait. Leave this box blank!
- Print your full name (first and last) clearly in the bottom right-hand corner. If your name is not **clearly legible**, this box will be replaced by the staff.
- **Remain inside the borders.** This can't be stressed enough. The edges are CUT on the inside of the borders. Don't put anything over or even ON the lines, including the descenders of the letters g, y, and so forth!
- Use colored pen or type. (Gel pens or thin sharpies will work best.) If you do it in ballpoint pen, crayon or pencil, you'll have to redo it. Don't use markers that will smudge.
- Work neatly. (You may use pencil first, but make sure your pen will not smear if you erase the pencil from under it.)
- Use appropriate pictures (no pictures from Google Images) and language.
- If you use pencil, make sure to erase it COMPLETELY. The scanner will pick up every stray line, smudge, or booger. Use a white gum eraser.
- Proofread for spelling, word choice, capitalization, and punctuation. **You'll have to fix any errors**, and it's just easier and faster to do it right the first time.

Deadline: February 28th — If it is not handed in by this date, we can not guarantee your square will make it into the Yearbook :(

ONE MORE NOTE: It can NOT be crumpled at all. When it's finished, it's advisable to put it in a clear holder to keep it pristine. If it's crumply, you'll have to do it again.

Example:
